

Brothers Ticket Boxes

Body and Equipment

CUSTOM BUILT TO YOUR SPECIFICATIONS

By bringing our expertise in function as well as in design and fabrication, we guarantee the stability of our ticket boxes in high wind. We build a ticket box that will get customers out of the line and on the main attraction. Single, double, or three to four seller multi units come standard and are economically priced. Brothers also creates a custom-built ticket box to meet your needs and specifications, and a carrier trailer for hauling.

We will recreate your logo on the signage and design into the box the equipment that you need to meet your traffic requirements. Brothers ticket boxes are constructed from heavy gauge aluminum and are virtually maintenance free. Back lit Lexan signs are designed for maximum visibility.
